Geo Connect Asia 2020

Following the Singapore Ministry of Health's raising of the DORSCON threat level to orange, Montgomery Asia has made the difficult decision to cancel the 2020 edition of Geo Connect Asia, originally scheduled for the 18th and 19th of March 2020 at Suntec Singapore. This decision was made after careful consideration and extensive consultation with all stakeholders in order to ensure the health and safety of our partners, exhibitors and visitors.

Montgomery Asia continues to monitor the situation and is working closely with the relevant government agencies, supporting associations and partners to identify the best next steps for Geo Connect Asia. More information will be announced soon.

For the latest updates on the 2019 Novel Coronavirus (2019-nCoV) situation, please refer to the [Singapore Ministry of Health website](http://www.health.gov.sg).
