

TheFuture.Education Design Challenge

Powered By LEHIGH@NasdaqCenter

PETALING JAYA, Feb 17: As part of Entrepreneurship and Future of Education Think Tank initiative, Lehigh University and the Nasdaq Entrepreneurial Center are hosting TheFuture.education Design Challenge to engage students in a call for open innovation and idea sharing around designing the future of inclusive entrepreneurial education. ASTI is also a proud partner of this initiative.

This is an exciting opportunity to learn, get inspired, and create impact through open innovation and idea sharing. Through this event, you will hear from inspirational speakers, develop your entrepreneurial mindset and skills through innovative workshops, receive mentorship and coaching, and connect with individuals around the world who are working to make a difference through education.

The Objectives is this Challenge is to:

- **Increasing Access & Opportunity**
Reducing barriers and increasing opportunities for students to access entrepreneurial learning experiences regardless of zip code, bank balance, age, race, ethnicity, major, education level, or gender.
- **Cultivating Entrepreneurial Leaders**
Creating meaningful learning opportunities that cultivate entrepreneurial mindsets, skills, and agency in all students.
- **Accelerating Entrepreneurship & Innovation**
Creating new opportunities, increasing support and resources for students who want to launch ventures.

The Target age group is 16 – 35, but this innovation challenge is open for all learners around the world who want to design solutions that reduce barriers, increase access, and accelerate engagement in high-quality learning experiences that develop entrepreneurial mindsets, skills, and agency in ALL students. The Participants register and participate in the event workshops as individuals, but the participants are welcome to team up with others on the video submission. The event can accommodate up to 350 participants. Register now at <https://www.thefuture.education/> by 5 March 2021 and not to miss this opportunity.

ASTI is a non-governmental and non-profit oriented organization (NGO) working towards empowering young children's' interest in science through the act of doing where learning is achieved from discovering scientific principles themselves. In order to achieve this vision, ASTI has experimented with various projects and has successfully gained traction on programs such as the Science Fair for Young Children (SFYC), Young Inventors Challenge (YIC), Creative, and Critical Thinking Camp (CCTC), and others. Each of these programs are interlinked in order to provide a platform for participation of young students that is holistic and inclusive in nature. Please refer to our website www.asti.org.my for more information regarding our projects.
