

ASTI is a non-governmental and non-profit oriented organization (NGO) working towards empowering young childrens' interest in science through the act of doing where learning is achieved from discovering scientific principles themselves. In order to achieve this vision, ASTI has experimented with various projects and has successfully gained traction on programs such as the Science Fair for Young Children (SFYC), Young Inventors Challenge (YIC), Creative, and Critical Thinking Camp (CCTC), and others. Each of these programs are interlinked in order to provide a platform for participation of young students that is holistic and inclusive in nature. Please refer to our website www.asti.org.my for more information regarding our projects.
