

Ms Anusuya Krishnan Executive Committee member of the National Association of Women Entrepreneurs of Malaysia (NAWEM)

Anusuya Krishnan has extensive experience in integrating digital technology to solve business challenges, and deliver value to customers. Her company focuses on implementing tools and technologies in digitalization particularly in the area of Digital Process Automation. In 2019, Migi-Te had ventured into innovating solutions to integrate low-code development platforms with IOT devices to improve process automation and traceability in manufacturing and food production. Migite is working with several key partners to develop and launch SaaS applications for horizontal markets.

Anusuya is an Executive Committee member of the National Association of Women Entrepreneurs of Malaysia or NAWEM, where she handles special projects such as the "IR4.0 AND THE FUTURE OF WORK" and "Technology Leadership for Women" conferences, the project on "Promoting 21st Century Gender Related Labour Practices in Malaysia" and the "Data For Her" workshops.

She has been a panelist on several forums and webinars on diversity and technology; notably, the forum on "Imperatives to Breaking Down Barriers to Women's Leadership in Tech" organized by The Asia Foundation and the Public Private Dialogue on Women and the Economy panel on "Reducing the digital gender gap and promoting more women in STEM" ; both in La Serena, Chile during APEC 2019; and more recently, the Regional Webinar on "Promoting Diversity and Inclusion in the Supply Chain" organized by UNDP.

Anusuya has an MBA (majoring in Entrepreneurship) from the Vlerick Business School in Belgium and a Bachelor of Science (Computer Science) from Universiti Sains Malaysia in Penang, Malaysia. She was selected as a participant for the "Competing on Data Analytics and Big Data" programme conducted by the Harvard Business School in Malaysia in 2017.
