NEWS

WEBINAR: The Future of Women in STEM

STEM is an area dominated by men. What is the future of women in STEM? Why is this issue important? What can be done to promote STEM to girls?

These are some of the questions the webinar entitled "The Future of Women in STEM" is hoping to answer.

ASTI will be co-organising this webinar scheduled as below:

Date: 12 February 2022

Time: 11.00am – 12.45pm

Platform: Zoom Meet

WEBINAR
THE FUTURE OF WOMEN in STEM

LIVE WEBINAR
11 AM - 12.45 PM MYT
SATURDAY | 12 FEBRUARY 2022

REGISTER NOW at
<https://forms.gle/dj39v3ierp2eZ2Nh7>
and Join us at Zoom Platform Link: shorturl.at/ilF02

STEM is still seen as a male dominated area. Although the enrollment of women in STEM subjects has improved over the years, their involvement in STEM related careers still lags behind. This webinar hopes to start the conversation on some of these key issues including on how to overcome these challenges, particularly in light of the fast changing world post-COVID-19 and beyond.

Target Audience :
Secondary School Students,
University Students,
Working Adults

More information about the webinar, registration link, and the full profiles of the speaker and discussants are available at <https://www.asti.org.my/womenstem>

Speaker
DR. NORA SAVAGE
Program Director,
Engineering Directorate,
National Science Foundation

Nora obtained her bachelor's degree in Chemical Engineering in 1992 from Prairie View A&M University. She also received two Masters Degrees (in Environmental Engineering and Environmental Science), followed by a doctoral degree in Environmental Science from the University of Wisconsin-Madison. Nora currently serves as Program Director for the Nanoscale Interactions Program housed within the Chemical, Bioengineering, Environmental and Transport Systems Division of the Engineering Directorate at the National Science Foundation, United States.
