16 **Abstract**

17 The manuscript must include an abstract, describing its main points within 150-350 words in
18 English language, with single spacing.

19
20 **Keywords: [3-5 keywords; Times New Roman; font size 12; arrange alphabetically]**

1 **1.0 Introduction**

2 [All first order headings use Times New Roman, font size 12, bold and to the left]

3
4 An Introduction describes the rationale for undertaking the study and clearly describes the purpose
5 of conducting it. It should be focused and concise. Generally, introduction consists of three parts;
6 first part provides background information, the second part justifies the need to explore the area
7 that is not known and the third component states the hypothesis or describes the objectives of the
8 study.

9 **2.0 Methodology**

10 [Second order headings should be bold, font size 12, and to the left]

11
12 The materials and methodology must be explained in detail in paragraph form with relevant
13 citation. The methodology would differ depending on the type of paper you have chosen.

14
15 **2.1 Materials**

16 Beakers,

17
18 **2.2 Chemicals**

19 Sodium Chloride (NaCl),

20
21 **2.2 Method**

22 Abcdefghij....

23
24
25 **3.0 Results and Discussion**

26
27 All illustrations including figures and tables must be labelled. These illustrations should be referred
28 to and numbered serial, as figures (Figure 1). All illustrations should be provided in camera ready
29 form. All figures must have borders.

1 **Table 1:** [Table text and caption should center, Times New Roman, font size 12, single spacing,
2 included in body text. Between title and the table, there should be no spacing]

4.0 Conclusion

9

10 The conclusion must re-emphasize the reader why the article was written in the first place. The
11 conclusion must reprise the argument that has been made without repeating it ad nauseam.

12

13 Acknowledgements

14

15 Acknowledgement can be made to the funding institution, general supervision of a research group
16 or general administrative support provided; writing assistance, technical editing, language editing,
17 and proofreading.

18

19 References [Arrange alphabetically]

20

1 Alphabetically ordered references list should be included at the end of the manuscript. All
2 references cited in the text must appear in the reference list. Authors are responsible for the
3 accuracy and completeness of all information in the reference. Manuscripts must conform to the
4 references in American Psychological Association (APA) Style. The references style adopted
5 should be consistent throughout the manuscript. The use of EndNote or Mendeley free software
6 for citation/ bibliography are encouraged. For Example:
