ASTI's RECOVERY PROJECTS

SUCCESS AND FAILURES OF EDUCATION LOANS AMONG MALAYSIAN GRADUATES - RECOMMENDATIONS TO IMPROVE OUTCOMES - PARTICIPATE IN OUR SURVEY

The world is changing very fast, particularly in the post pandemic world. Recent study shows that 72% of SPM students do not want to further their study. Certainly financing their education is a component in their decision making criteria. After our first study on the effectiveness of online learning and teaching during the Covid-19 lockdown in Malaysia, we now would like to conduct our next study that aims to explore how young people may decide in financing their tertiary education and to recommend changes in policies to improve outcomes for borrowers and lenders for the betterment of Malaysia. We also hope this study will add to the national conversation on young people charting their own career path by making better and informed decisions.

Contribute to our study by participating in our survey at <https://survey.asti.org.my/>

Young Inventors Journal (YIJ)

Young Inventors Journal (YIJ) is an online research journal for people to develop well researched solutions for the issues which are pertinent today. YIJ hopes to empower the young generation with their new ideas and inventions. We are looking for volunteers to join our YIJ Editorial Board Team or Editing Team to be part of our movement and vision.

Join our Editorial Board Team

Young Inventors Journal (YIJ) was designed to provide access, and to empower people to write well researched papers detailing a solution for a problem they themselves identified and feel strongly about. Most journals aim to push the frontiers of knowledge. However, YIJ aims to push the writers own frontiers – both knowledge and imagination, for these are the real frontiers that matters. Join our movement and vision.

Responsibilities

- Help ensure quality and integrity of Journal
- Help Chief Editor and Managing Editor in managing the editing team.
- Provide scientific expertise for the journal - STEM (science, technology, engineering & mathematics) and/or social science.
- Assist in establishing editorial guidelines/policies.
- Review papers that have been submitted for consideration.
- Administer peer review or serve as a peer reviewer.
- Help promote journal within key communities.
- Provide suggestions for future directions and comment on published content.

The day to day operations of YIJ is the responsibility of the ASTI Secretariat.

Requirement

- Excellent command of the English language.
- An expertise in the field of STEM (science, technology, engineering & mathematics) and/or social science.
- To have knowledge in the field of study to evaluate the research's novelty, quality, impact and importance.
- To be Editorial Board Member on volunteer basis and report to the ASTI Committee when needed.

YIJ Online Journal can be found at www.younginventorsjournal.com

For more details, contact us at yijasti@gmail.com or call/WhatsApp us at 014-712 4217.

Join our Editing Team as a Reviewer

Young Inventors Journal (YIJ) was designed to provide access, and to empower people to write well researched papers detailing a solution for a problem they themselves identified and feel strongly about. Most journals aim to push the frontiers of knowledge. However, YIJ aims to push the writers own frontiers – both knowledge and imagination, for these are the real frontiers that matters. Join our movement and vision.

Responsibilities

- You will be expected to finish your review in the time allotted.
- Comment on the paper's scientific rigour, novelty, quality, impact, and importance among other things.

Requirement

- Excellent command of the English language.
- An expertise in the field of STEM (science, technology, engineering & mathematics) and/or social science.
- Able to evaluate the research's novelty, quality, impact and importance.
- To serve as a volunteer and a mentor for young talent.

YIJ Online Journal can be found at www.younginventorsjournal.com

For more details, contact us at yijasti@gmail.com or call/WhatsApp us at 014-712 4217.
